

Fauna Works Conservation Fund

Who We Are:

Fauna Works is committed to conserving biodiversity, with active involvement in re-vegetation, habitat recovery and the reshaping of wildlife habitat alongside industry.

Fauna Works is an independent environmental consultancy company and we stand behind our ethos to educate the community, conserve biodiversity and problems solve through innovation.

Fauna Works is committed to forming partnerships with like minded organizations to manage and solve environmental problems.

- Fauna Works has established a conservation fund for the purpose of re – wilding wildlife populations and maintaining biodiversity in partnership with the community; we donate 20% of our profits to environmental causes worldwide.

What is Fauna Works Conservation fund:

Fauna Works Conservation Fund is for companies and individuals who wish to assist our team to support global conservation efforts to preserve biodiversity. We aim to support individuals, trusts and organisations that focus on the acquisition of land for the purpose of re – wilding animal populations restoring wildlife habitat, and providing support to biodiversity for endangered threatened and vulnerable species. Fauna Works encourages companies and individuals to engage Fauna Works on their next project allowing us to reinvest money back into supporting global conservation for the purpose of protecting wildlife and biodiversity for the next generation. Fauna Works Conservation Fund is one way companies and individuals can direct already allocated funds towards caring for nature.
